spinal marrow.

IT ACTS UPON THE SKIN,
producing a free and copious discharge of all foul humors
secreted in this organ.

FESTERING SORES.

The most repulsive sores and cruptions are instantly relieved from irritation and quickly removed from the skin.

HOW RADWAY'S RENOVATING RESOLVENT CURES

HOW RADWAY'S RENOVATING RESOLVENT CURES CONSUMPTION.
To cure Consumption we must stop decay and rebuild and heal the worn-out organs of the system that disease has con-

we must treat every organ in the system, for the Lungs are not the only organs affected. It affects the Liver, the Heart, the Kidneys, Bladder, and Pancreas; and, in fact, every organ in the body is more or less tainted with decomposition and decay.

THE LUNGS
ARE THE BREATHING APPARATUS OF THE SYSTEM. When the Lungs are in a state of decay they are unable to receive or emit the necessary amount of air requisite to sustain life. The greater the atmospheric pressure upon the air-cells, the more painful, irritable, and sufficiently is the weight upon the lungs.

THE GLANDS

become swollen from the irritation and inflammation of the ULCERS AND LUMPS IN THE THROAT

ormed from unhealthy deposits, which the lungs are le to eject without the aid of powerful emetics, and the PUS

pus deposited in the bronchial tubes; it hardens, and is

formed into lumps, which ulcerate, suppurate, and discharge THE AIR-CELLS THE AIR-CELLS
are clogged, and the respiratory organs checked, so that
breathing is rendered oppressive and exceedingly difficult.
RADWAY'S RENOVATING RESOLVENT WILL ACT AS POLLOWS: THE LUNGS.

It will heal, strengthen, and remove from them all dis-cased deposit, cleaning the air-cells from all diseased humors. REMOVES FROM THE GLANDS inflammation, and rids the Throat from Ulcers, Tumors, Hard Swellings, and other diseased deposits. other diseased deposits.
TO THE LIVER,

R will impart tone and energy.

AND EVERY ORGAN IN THE SYSTEM it will reorganize and cleanse from putrid and unhealthy matter and humors.

IN TEN MINUTES after taking this pleasant remedy the patient feels easier. It immediately allays the irritable cough, loosens the tightness across the chest, and relieves the sharp wrenching pains. Let the afflicted call upon CHAS. STOTT & CO., and W. H. GILMAN.

N. B.

RABWAY,S RENOVATING RESOLVENT, AND RADWAY'S READY RELIEF, are two distinct Preparations; yet, in many cases, they are intended to be used together. The patient, by reading the advertisement attentively, will easily ascertain the remedy requisite to meet the complaint. R. R. R.

brilliant hopes or anticipations, rendering Marriage, etc.,
impossible.

Young Men especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to cestacy the living lyre, may call with full confidence.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOINSTON,
Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head when asleen, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solidary habit, which ruin both body and mind, unfitting them for either business or scelety.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsis, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mendally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY TAKE PARTICULAR NOTICE.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory. Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society. NERVOUS DEBILITY.

their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, bow happy have hundrels of misguiled youths been made, who have been suddenly restored to health-from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

ion! Such persons, before contemplating MARRIAGE. MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the prespect heurly darkens to the view; the mind becomes shadowed with despair, and filled with the melanchely reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and

sly confide in his honor as a Gentleman, and onfidently rely upon his skill as a Physician. TO STRANGERS.

The many thousands cured at this institution within the Inst ten years, and the numerous important Surgical Opera-tions performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have ap-peared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable

TAKE NOTICE. It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unpressional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors-individ uals destitute of knowledge, name, and character—pedlars shoemakers, mechanics, &c., advertising themselves as phy sicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with uined health to sigh over your galling disappointment. his motive alone that induces Dr. J. to advertise, for he and motive you. To those unsequainted with his reputation he doesns it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full

gor restored.

AMERICAN TELEGRAPH. Meeting in Philadelphia against the New

Free Negroes in the Free States.

[For the Daily American Telegraph. MESSES. EDITORS: In the Telegraph of the 24th instant was an article with the ominous caption of "Free Negroes in the Free States." Presuming it has reference to Indiana, among the number of "Free States," and being myself a native of that State, I feel bound in justification of its citizens to reply to what I know to be untrue, viz: That the negro in the "Free States" are politically and socially proscribed by a people ose professions gave promise of better [other] things. By what authority does the author of that article make the assertion (for it is but an assertion) that the people of Indiana ever made professions or promise of better things to the

negro.
The citizens of the county I came from would laugh at the declaration that they ever professed the sympathy for the negro which you, in your ignorance of that people, would wish others to believe. The people of Indiana, in their convention last winter, engrafted a clause in the new constitution of the State prohibiting the immi-gration of free negroes into it. And why did they do so? They did so, not because they had any sympathy for the negro; not because they had ever offered inducements to them to immigrate to the State; not that they are opposed to the institution of slavery where it exists; not that they do not faithfully execute and enforce the laws of the United States; not that they look with holy horror upon a person who has that kind of property,—but simply in self-defence, or self-preservation, which is the first law of na-ture. What right have you, as a citizen of the South, to complain of their enactments? Have not all or some of the slaveholding States similar laws? Do they not prohibit the immigration of free negroes into their States? It'so, what ground of complaint have you? Indiana chose to be free from your "peculiar institution," as you are pleased to call it; and Indiana, in passing those laws, has followed in the footsteps of her illustrious predecessors, the Southern States. If the South has set the free States a bad example, they are to blame, not us. Indiana's legislation upon the subject of slavery has, from the time of her admission into the Union, been consistent; and no State in this Union at this day occupies a higher position among her sister States: She is not a busyoody; she minds her own business; and her citizens would be pleased if the citizens of other States would do likewise. She does not tolerate slavery within her borders, because she believes the institution to be an incubus upon the prosperity of States—and do not facts demonstrate it?—and you, as a candid man, cannot deny it. Of the people you censure you know nothing, else you would not do it. They are your own brethren. Three-fourths of the citizens of the county I live in were born and raised in slave States. They are highminded,

wholesouled, chivalric sons of the South. We love them, and you ought to love them; ingratitude is the worst trait in man's character. Having a decent respect for the opinions of those who differ with us, I would suggest the propriety of your not in future publishing articles censuring those who may honestly differ with you. They can do no good, and might possibly be the means of increasing the bad feeling which I am

sorry to say already exists.

You don't understand what Indiana means by those enactments. She simply means that the free negro population is a bad one, and she knows so by sad experience; and that same experience teaches you that such is the fact. Look at the cases in your courts in your own city of Washington. There is evidence sufficient to condemn this kind of population. If you can't keep them from being idle, worthless, committing crime, Ac., how could you expect the people of the free States to keep them from being so. The fact is, the people of Indiana, at least in that part in which I reside, do not like the negro; consequently have no symticularly, (for I don't speak for any but her,) you will find her "theoretically and practically cor-

CONGRESS-ITS WASTE OF TIME. - We cannot understand how a man acknowledging any responsibility to a constituent body can stand up, in open day, in the federal House of Representa tives, and wag his tongue by the hour in uttering words which have no reference whatever to the public business he was sent there to act upon.

This waste of public money—of time which should be devoted to the public business—seems. to be acquiesced in almost by common consent. The few who do not approve it are too few to be effective, and they have given over the lifting up their still small voice, like one crying in the wilderness, against the abuses they daily witness. The most important and pressing public business slumbers on the table; the public creditors, public works, must await the pleasure of the p cians; they must talk about themselves and their party, and the opportunity of talking at the pubthe expense is too good to be lost. The public ment printing office and book-bindery will, in a business must wait? What is it to them if men, very brief time, be established in this city, and that if families, whose welfare depends upon their action, are suffering? What if the public interests are neglected? These are too inconsiderable and ity, and a source of contention and corruption retriffing matters to be attended to until mightier moved from before the partisan press. Contracts and weightier affairs are disposed of! Are not at low rates, but to which the contractor is never their interests to take care of first? Most assuredly are they the most important of propositions,

York Mint.

A large meeting was held last night at the Musical Fund Hall, Philadelphia, to remonstrate against the proposition to establish a branch mint in New York, which was addressed by Col. Patterson, Morton McMichael, and several of our prominent merchants. A series of resolutions were passed setting forth that such a measure would entail useless expenditures, and is justified by no adequate grounds of public convenience, and is unworthy of popular legislative favor. They characterize the effort as an indirect attempt to remove the mint to New York, and denounce the chief argument of economy as unworthy of consideration; for, in the first place, the creation of the California mint will obviate the necessity for such expense, and, in the second place, the cost for transportation to Philadelphia is so insignificant, compared with the construction of a mint, that it is far better for the government to assume the expense than to establish a branch

The Fire Last Night.
The alarm of fire, about eleven o'clock, was caused by the burning of an out-house, between 20th and 21st streets, on G street, in the First Ward, directly in the rear of Mr. Crampton's premises, which were in imminent danger. The timely exertions of the citizens prevented the spread of the flames, or there would have been

great destruction of property. This is another to be added to the many incenliary acts recently committed in the First Ward. causing an excitement amongst its citizens, whose suspicions, we are informed, are directed to a set of outlaws who are constantly prowling about at

night. Can nothing be done to change this state of things? Are not laws, and officers to execute them, sufficient? We are told the penalties for this crime should be increased; but that will prove of little avail unless they are to be en-

Silver Currency. We are gratified to perceive that the Senate vesterday ordered to be engrossed for a third reading the bill reported on the 8th instant by the Committee on Finance, in compliance with a recommendation of the Secretary of the Treasury, providing for a new silver coinage, in pieces of the denomination of half a dollar and less, to contain a greater portion of alloy than the silver coins now in use. This measure is designed to retain a currency essential in business transactions. The bill is to go into effect on the first of May next, if finally ratified. It is locking the stable door, however, after the horse is stolen!

In the Board of Common Council, yesterday afternoon, a resolution was passed, asking of Congress the passage of more effective laws for the suppression of gambling, or the granting of such power to the city authorities. A resolution providing for taking a vote of the people in reference to the suppression of the sale of intoxicating liquors in Washington was debated to the period

of adjournment The Board of Aldermen amended the bill from the other Board providing for the crection of an iron bridge over the canal at Fourteenth street, GNIFICENT SCHEME.

"Throw Physic to the Dogs."

We are in a good deal of doubt as to whether physic cures or kills most of the human family, but are very clear in the conviction that Mrs. P. T. Some years ago, a heavy dose of morphine, taken by mistake, very nearly destroyed her life.

Dr. Johnson once apologized for writing a long letter, because he had not time to write a short one. General Scott commenced, as he thought, to write a short, familiar note; but the temptation to extend it arose, and it proved fortunate in the progress of the war that it did, for enlightened action proceeded from the counsels therein given.
